## Monthly comments

Quantrom P2P Lending had a more normal return in August of 0.58%, giving a year-on-year return of 7.24%.

Interest payments received in August were in line with our expectations. August is always a bit of a holiday month, where interest payments are lower than in other months. It looks like borrowers again are behaving "normally" after COVID-19 is somewhat under control.

Current loans increased to 78.6% of the value of the portfolio. Loans delayed more than 60+ days decreased to 2.7% of the value of the portfolio.

Quantrom P2P Lending has taken some provisions in August 2021 equal to less than 0.1% of the value of the portfolio.

Since inception, Quantrom P2P Lending has given a return of 40.2% and outperformed the long-term return target by 9.83%-points.
