Monthly comments

Quantrom P2P Lending had a return of 0.65% in August 2023, which gives a year-on-year return of 7.35%.

Since the start in March 2017, Quantrom P2P Lending has outperformed the long-term return target by more than 15%-points.

Interest payments in August 2023 were as expected.

Current loans in the portfolio increased to 81.8% of AUM, while loans more than 60 days late were slightly lower at 12.2% of the asset under management. Other time buckets had minor changes.

The return in August 2023 was adversely affected by provisions of 0.14% of the value of the portfolio, while recoveries were at 0.08%.

As we previously indicated, provisions and recoveries have been and will continue to be volatile during the year 2023.

Our expectation based upon our analysis of our current portfolio is, that provisions will peak during the third quarter. We further expect that recoveries will start to improve from the fourth quarter of 2023 based on the information we have received from the platforms.

Invested portfolio excluding cash

The portfolio at the end of August 2023 consisted of more than 10,000 loans. The weighted average interest rate on the portfolio is now 11.91% with an average weighted maturity of 36 months.

The main exposure in value is still towards car and vehicle loans which represent 65% of the value of the portfolio at the end of the month an increase of 2%-point during the month of August. Exposure to property loans was 17% of the value of the portfolio. At the end of August, personal loans were at 17%, while business loans with collateral in property were at 1% of the value of the portfolio.

Figures 2-12 provide more details on the composition of the loan portfolio.
